

# TRYONYOU: The Hybrid Fashion Revolution

## The Problem: 40% Return Rate

Fashion retail loses billions annually due to poor fit and lack of emotional connection. Current virtual try-on solutions are merely "digital mannequins" that fail to capture the user's emotional state.

## The Solution: Divineo Ecosystem (Patent EPCT/2024/098)

We integrate 3D Avatars, Emotional AI (PAU), and Biometric Scanning into a single platform. This is not just a tool; it is an "Emotional Fashion Intelligence" system.

## Commercial Models

### 1. SaaS Pilot (The Profitable)

- Immediate deployment for e-commerce.
- Pay-per-try model.
- ROI positive in 4 months.
- Reduces returns by 40%.

### 2. Full License (The Advanced)

- Complete "Divineo" system integration.
- Includes Smart Wardrobe hardware specs.
- Access to "Factory of the Future" (LIVEIT) modules.
- Exclusive territory rights.
